

# MS2302

## DIGITAL EARTH TESTER

- Measuring earth resistance by constant current inverter 800Hz approx. 3mA, earth voltage by rectifier type 5k $\Omega$ /V approx. 40~500Hz
- Two-pole & three-pole test mode
- **Data logging**: save up to 100 measures
- Max /Min /Avg value and relative measurement
- Continuity test
- Large LCD display with analog bar graph and backlight
- Auto-power off
- Low battery indication
- Safety as IEC1010-1 Cat III 1000V or Cat. IV 600V

### Technical specifications

Earth resistance: 30  $\Omega$ ,  $\pm 2.0\%$ ;  
100  $\Omega$ /1k $\Omega$ /4k $\Omega$ ,  $\pm 3.0\%$

Earth voltage: 0~200.0V (50~60Hz),  $\pm 1.0\%$

Dimensions: 180x140x65mm

Battery: 1.5Vx6, AA size

Weight: approx. 950g
